KUDUMBASREE STORE

ABSTRACT

The KUDUMBASREE STORE Project aims to create a platform for market the hand-made products of kudubasree units in various locations .The cash from this sale is an asset to kudumbasree promoters. Customers who purchase goods through this website get very good products.The products come to home without paying too much. kudumbasree Mission had already started displaying the products of kudumbasree's micro enterprises. The products produced by these units are widely accepted among the community because of its ethnicity and purity. As the demand for kudumbasree products started increasing day by day, and they were in a search of good platform to get their products to the customers easily.so we try to help them through our new website, Kudumbasree units interested in selling products are registered on this website.The admin select them.Each unit has a coordinator.Products are added and deleted through that coordinator.Consumers search and order the items they need. Through this website, Kudumbasree promoters helps to generate an income.Good products are available to customers at affordable prices.
