Kudumbasree Store

The project entitle "kudumbasree store" is aimed at helping you to purchase all types of product in cheap price through this website, and the customer can get healthy products easily, kudumbasree Mission had already started displaying the products of kudumbsree's micro enterprises. The products produced by these units are widely accepted among the community because of its ethnicity and purity. As the demand for kudumbasree products started increasing day by day, and they were in a search of good platform to get their products to the customers easily.so we try to help them through our new website, in this website any kudumbasree unit can register and they can market their product. The admin gives an id and password for each unit, and he will categorize the products. Now the customer can view the products and purchase them easily in a cheap rate.
